Use and Definition of Non-GAAP Financial Measures

- ¹ Adjusted net income (loss) and Adjusted earnings (loss) per share As a result of the Tax Reform, intangible asset impairment, transfer of corporate functions and impacts of product recall, the Company is presenting a reconciliation of Net income (loss) and Earnings per share determined in accordance with accounting principles generally accepted in the United States ("GAAP") to Adjusted Net income and Adjusted Earnings per share which excludes the impact of the Tax Reform, intangible asset impairment and the product recall.
- ² Adjusted EBITDA In addition to our Net income, for purposes of evaluating operating performance, we use an Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA"), which is adjusted to exclude certain significant items as set forth below. Our management uses Adjusted EBITDA to evaluate the operating performance of our business, as well as for executive compensation metrics, for comparable periods. Adjusted EBITDA should not be used by investors or other third parties as the sole basis for formulating investment decisions as it excludes a number of important cash and non-cash recurring items.
- ³ The sum of net income (loss) and adjustments per diluted common share may not equal the Adjusted earnings per share due to rounding.

While Adjusted net income (loss)¹, Adjusted earnings (loss) per share¹ and Adjusted EBITDA² are non-GAAP measurements, management believes that they are important indicators of operating performance, and useful to investors, because:

- EBITDA excludes the effects of financings, investing activities and tax structure by eliminating the effects of interest, depreciation and income tax costs, and
 - ° For the 14 and 53 weeks ended February 2, 2018 and the 13 and 52 weeks ended January 27, 2017, we exclude the loss on disposal of property and equipment as management considers the gains or losses on disposal of assets to result from investing decisions rather than ongoing operations.
- Other significant items, while periodically affecting our results, may vary significantly from period to period and have a
 disproportionate effect in a given period, which affects comparability of results. We have adjusted our results for these
 items to make our statements more comparable and therefore more useful to investors as the items are not representative
 of our ongoing operations.
- ° For the 13 and 52 weeks ended January 27, 2017, we exclude the impairment of our indefinite-lived trade name asset as this is a non-cash charge that is an unusual event that affects the comparability of our financial results.
- ° For the 14 and 53 weeks ended February 2, 2018, we exclude the impacts of the transfer of corporate functions, including severance and contract losses associated with a transition of certain corporate activities from our New York office to our Dodgeville headquarters.
- ° For the 14 and 53 weeks ended February 2, 2018, we exclude the impacts of the Tax Reform as they are a result of a nonrecurring event that affects the comparability of our financial results.
- ° For the 52 weeks ended January 27, 2017, an amount of a previously recorded recall was reversed due to lower than estimated customer return rates for the recalled products despite our efforts to contact impacted customers. These are unusual events that affect the comparability of our financial results.
