FOR IMMEDIATE RELEASE

LANDS' END REPORTS FISCAL 1999
YEAR-END AND FOURTH QUARTER RESULTS
DODGEVILLE, WIS ... March 11, 1999 ...Lands' End, Inc. (LE),
today reported results for its fourth quarter and fiscal year
ended January 29, 1999.

Net sales for the 52-week year just ended totaled \$1.371 billion, compared with \$1.264 billion in the prior year, an increase of 8.5 percent. The increase in sales was primarily due to additional catalogs and pages mailed to customers. The growth in sales came primarily from the company's specialty businesses. Sales from foreign-based operations were up slightly for the year, while sales from the core business, represented by the monthly and prospecting catalogs, were down from the prior year.

Net income for the year just ended was \$31.2 million, down 51 percent from the \$64.2 million the company earned in fiscal 1998. Diluted earnings per share for the year just ended were \$1.01, compared with \$2.00 per share for the prior year. The diluted weighted average number of common shares outstanding was 30.8 million for fiscal 1999 and 32.1 million for fiscal 1998.

As previously reported, in the third and fourth quarters of

fiscal 1999, the company had after-tax non-recurring charges of \$0.9 million and \$7.0 million, respectively, or \$0.26 per share for the entire fiscal year. In the first quarter of fiscal 1998 the company had an after-tax gain of \$4.9 million, or \$0.15 per share, from the sale of its majority interest in The Territory Ahead. Before the effect of these adjustments, net income for fiscal 1999 was \$39.1 million, or \$1.27 per share, compared with \$59.2 million, or \$1.85 per share in fiscal 1998.

Net sales in the fourth quarter of fiscal 1999 were \$541 million, up 12.6 percent from the fourth quarter of the prior year, when net sales were \$480 million. Net income for the quarter just ended was \$25.7 million, down 37.7 percent from \$41.3 million in the similar period a year ago. Including the effect of the non-recurring charge discussed above, diluted earnings per share for the quarter just ended were \$0.84. Excluding that effect, diluted earnings per share for the quarter just ended were \$1.07, compared with \$1.32 in fiscal 1998.

In commenting on the results, company president and chief executive officer David F. Dyer said, "We've made much progress in this past quarter, especially in getting our inventory more closely aligned with sales, restructuring our organization into functional operating units and putting people in key leadership roles. Going forward, I believe our strengths as a premier direct merchant will enable us to position Lands' End as a major e-commerce player, in addition to a being a leading catalog company.

"One of the bright spots for us this year has been the Internet growth. Internet sales were \$61 million in fiscal 1999, more than triple the \$18 million of the prior year. From an expense perspective, it is less costly to advertise and take orders on the Internet, and over time, we will be able to mail fewer catalogs to those customers who prefer e-commerce shopping. Within three or four years, I would like to see a significant part of our sales coming via the Internet," he said.

Gross profit for the year just ended was \$617 million, or 45.0 percent of net sales, compared with \$588 million, or 46.6 percent of net sales, for the prior year. The decrease in gross profit margin was primarily due to more steep markdowns on higher sales of liquidated merchandise, especially in the fourth quarter when the company aggressively addressed its overstock situation, as well as from lower initial markups. Liquidations were about 10 percent of total net sales in fiscal 1999, compared with 8 percent in the prior year.

Year-end inventory was \$220 million, down 9 percent from \$241 million in fiscal 1998. Inventory throughout the entire year was higher as the company experienced softening sales, especially in the third quarter. To correct this, the company instituted price rollbacks, price reductions and some promotional pricing in the fourth quarter. This helped increase sales, but also had a negative effect on gross profit margin for the year and especially for the fourth quarter. The company's goal is to ship at least 90 percent of all items when the customer places an order. In fiscal 1999, the company achieved a first-time fulfillment rate of 91 percent.

Selling, general and administrative expenses rose 11 percent to \$544 million in fiscal 1999, compared with \$490 million in the prior year. As a percentage of sales, SG&A was 39.7 percent in fiscal 1999 and 38.8 percent in fiscal 1998. The increase in the SG&A ratio was mainly the result of lower productivity in the catalogs due to an increase in pages and catalogs mailed and a weaker response from customers. Additional factors increasing the SG&A ratio were relatively higher salaries and benefits, higher Year 2000 expenses, and increased investment in the Internet site. This was partially offset by lower bonus and profit sharing expense due to lower profitability. The number of full-price catalogs mailed totaled 259 million in fiscal 1999, up 12 percent from the prior year, while the total number of pages mailed was increased by about 10 percent.

Over the past two years, catalog circulation has increased 22 percent and page circulation by 38 percent. This level of circulation was due in part from our efforts to clear excess inventory in the fourth quarter. Starting this fall, circulation of catalogs and pages will be reduced to eliminate less profitable mailings. This will have a negative effect on sales growth, but is expected to have a positive impact on profits by increasing catalog productivity, or sales per page.

Lands' End is a direct merchant of traditionally styled, classic casualwear for the family, products for bed and bath, shoes, and accessories offered to customers through regular mailings of its monthly and specialty catalogs and the Internet.

STATEMENT REGARDING FORWARD-LOOKING INFORMATION Statements in this release that are not historical are forward looking, including, without limitation, statements about goals for Internet sales, anticipated cost savings, and possible circulation reductions and their anticipated effects on sales or profits. As such, these statements are inherently subject to a number of risks and uncertainties. Future results may be materially different from those expressed or implied by these statements due to various factors that may occur. Such factors include, but are not limited to the following: general economic or business conditions, both domestic and foreign; continued growth rates for e-commerce shopping; the company's ability to attract customers to the Internet; technology developments and their availability and cost; customer response to product offerings and initiatives; costs associated with printing and mailing catalogs; dependence on consumer seasonal buying patterns; and fluctuations in foreign currency exchange rates.
